Unit 10: **Recording Financial Transactions**

Learning aim A and B

Note to assessor

Scenario	
Task 1	Learners will need to be provided with the raw data set from which the financial documents are to be produced. Issues of authenticity could be a problem if the same data is used by the whole cohort and the centre will need to manage this when supervising the task taking and/or during assessment.

Learning aim C and D

Note to assessor

Scenario	
Task 2	Learners will need to be provided with the raw data set from which the financial documents are to be produced. Issues of authenticity could be a problem if the same data is used by the whole cohort and the centre will need to manage this when supervising the task taking and/or during assessment.
